

**LES DALLES TACTILES**  
**TOUCH SCREEN KEETOUCH 19"**  
**KP-190-SWOSOU2**

**Single-TOUCH**

Surface Acoustic Wave single-touch screens with protective frame are perfect for step-by-step use. Convenient

single-touch technology prevents accidental touches:

While running production lines

While interacting with the Human Machine Interface (HMI)

While entering a password at security checkpoints

While entering data through payment terminals and ATMs

Single-touch support allows working with non-adapted

Windows software: no reinstallation of the software is

needed for touchscreen equipment.

Optional double-touch makes gesture control possible:  
scroll, swipe, zoom and scale. Learn more on installing the  
touch technology software drivers for SAW devices.

**ANTIVANDAL TECHNOLOGIES**

Shock-resistant tempered glass with a 4-6 mm thickness  
and a 7H hardness is almost impossible to break  
accidentally.
